Planners OK Land Use Plan

Daly City Planning Commissioners last week conducted final hearing on modifications to the Land-Use Plan that will serve as a guide to future zoning here. The amended land-use map next goes to the city council for final perusal and adoption.

Only three persons in the small audience were concerned enough to speak at the hearing. Mission street merchant Ray Charette, builder Tom Callan Jr. and Garibaldi street resident Frank Zanini questioned portions of the plan.

Zanini cited that the streets east of Mission are too narrow to accommodate apartments projected for this area. Charette, who like Callan said the Land-Use map wasn't geared far enough into the future and lacked rapid transit inclusions, proposed that on both sides of Mission street and commercial establishments be extended one block back in depth. Charette also suggested more apartments and an off-street parking program, mentioning that the present City Hall would be a good spot for an off-street parking lot once a new civic center is established.

Fred Barber of the Hahn, Wise and Barber planning firm, answered Charette and Callan that the Land-Use Plan is "forward looking" and can be revised and modified as the city grows larger. Barber and City Engineer Bill Chapman stressed that the map designates "preferred" land-use and does not change existing zoning. All zoning matters still must go through channels before the Planning Commission and Council.

The Land-Use amendments approved by the planners last week included: designating the east side of Junipero Serra from Alameda to 87th street "industrial" instead of unclassified; "commercial" for southwest corner of Junipero Serra-Alameda; redesignation of "public lands" in Westlake Unit 11 west of Skyline to "public lands" and bringing city's southerly boundary and new streets up to date on the map; designation of "neighborhood commercial" for shopping areas at St. Francis boulevard-Skyline, St. Francis boulevard-Southgate; and

Planners Meet Next Wednesday

Because of next Tuesday's municipal election, Daly City Planning Commission will hold its regular meeting on Wednesday night, April 13, at City Hall, 75 Wellington avenue. Starting time is 8 p.m. and the public is invited.

The planning commission usually meets the second Tuesday evening each month at City Hall, according to chairman Richard Dwyer.

Council Meeting Monday Night

Daly City councilmen meet in regular public session next Monday night at City Hall, 75 Wellington avenue, at 8 o'clock.

Man, 56, Jailed For Annoying Little Girls

A 56-year-old San Francisco man was arrested for allegedly attempting to molest two Westlake girls Monday at 1 p.m. John Stephen Stubbs, 995 Market street, no occupation, was arrested for the second time on a charge of annoying children. He was last arrested here on November 16, 1959.

The mother of a 3-year-old said she left her daughter playing in the patio lawn at a Lake Merced boulevard apartment house. When she came outside she saw Stubbs "rubbing my daughter's arm and trying to kiss her."

A four-year-old's mother said she was taking a sun bath when she spotted Stubbs kissing her daughter on the neck and arm. She yelled at him and he let go of the little girl and sat on the stairs. Officer John Coleman made the arrest.

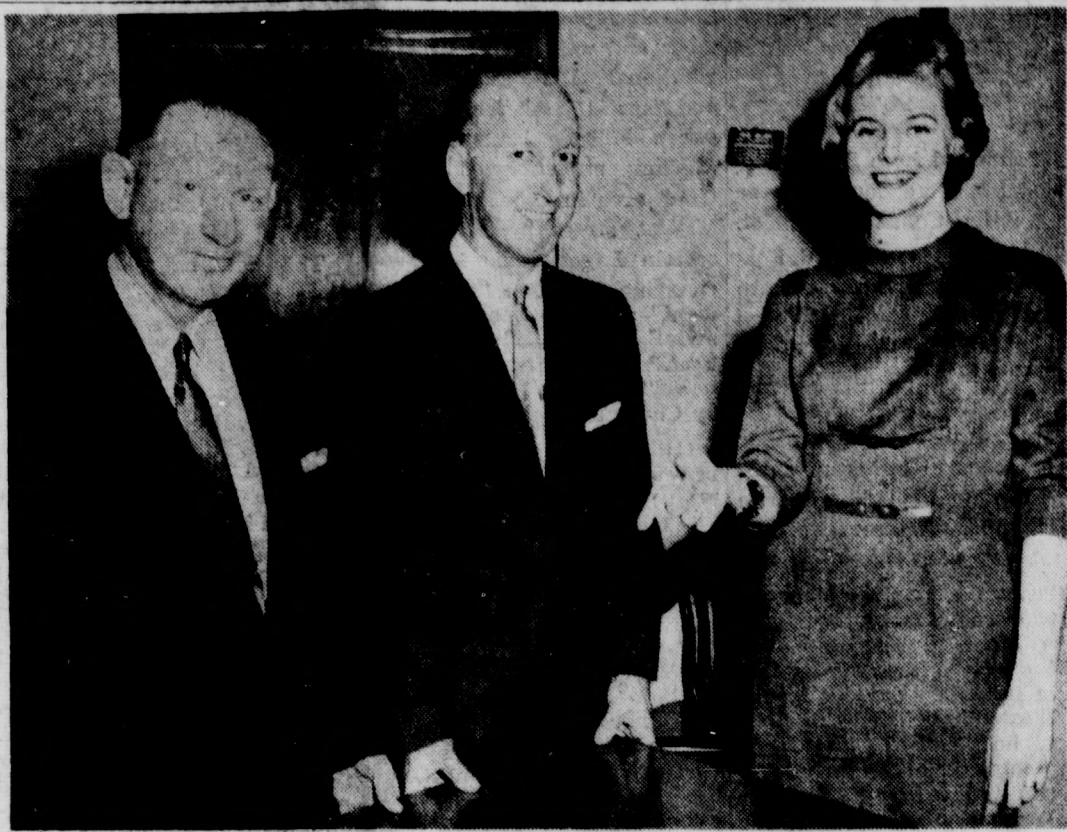

Heart Attack Fatal To President Of New Market Here

Bill Ceragioli, president of My Pet Market Corporation, which is building a \$500,000 new store on Mission street in front of Jefferson High School, died last Thursday after suffering a heart attack.

The 45-year-old grocery veteran was flying in his private plane at San Carlos when he was stricken. Ceragioli managed to land the aircraft, then collapsed. Doctors pronounced him dead on arrival at emergency hospital.

Ceragioli's successor as head of the firm, Nello Piccinini, said My Pet Corporation will continue with construction of its Daly City store. The other My Pet supermarket is located at 40th and Taraval in San Francisco.

Ancient Annex To Be Sold

Jefferson Elementary District trustees declared classrooms at the Jefferson annex, on San Pedro Road, unnecessary and sub-standard and approved to offer the property for sale.

The 70 first graders currently housed in the two classes at the annex will be split between two schools. Those from the St. Francis Heights section will receive schooling at Daniel Webster while those from the East side of the city will move down the block to Jefferson School, 14 Alameda street.

Abbott A. Hanks Company was hired as the testing laboratory for the two classroom addition at Jefferson School, at a cost of \$355. San Jose Steel Company was released as subcontractor for the project and awarded to L. Shaeffer Company.

Trustees also announced the hiring of Clifford Brotzman as supervisor for grading at George Washington School, at an additional \$50 a month. He currently receives \$650 per month as inspector at the General Pershing School. Elmer Werelius was approved as inspector at the two classroom addition at Jefferson School at no additional salary.

The Gigli Plumbing Company's low bid of \$895 was accepted.

Population Here 43,200

A special state census, concluded last Friday, placed Daly City's official population at 43,200, City Manager Edward Frank reported today.

The city council requested the census to obtain an additional share of gas tax and motor vehicle license kickbacks this fiscal year, which ends June 30.

Hunt Arsonist On Templeton

Templeton avenue residents were warned to look out for an arsonist who tried to start fires on that block last week.

Officer Matthew Murray took a report from George Windhurst, 57, 742 Templeton avenue, which claimed that a pile of rags had been set afire in his garage, located in an alley to the rear of his house. Luckily, the fire burned itself out.

Murray questioned neighbors and came up with a second report, Harold John Perro, 55, 736 Templeton avenue, said he had extinguished a fire in the garage of a house at 730 Templeton avenue. The owners were not home at the time.

Both cases took place either Friday or Saturday and entry was made by garage doors left open by the owners. Both times the rags were brought in by the perpetrator. Murray sent a copy of the report to the fire department.

The census, tabulating 4571 more residents here than a similar state census in June last year, means an additional \$36,565 for Daly City by July 1.

With the additional state apportionments, Daly City's total share of gas tax and vehicle license revenue will be \$240,840 this fiscal year.

City Finance Director Joseph Arch recommended the special census because population growth brings proportionately more city entitlements to the two state levies. The census, costing the city only \$500, was made on the basis of new water meter and utilities listings, the state estimating 3 and three-tenths persons in each new home. Cities get \$5 for each motor vehicle license and \$3 per capita in gas tax returns.

Of the extra \$36,568 now available to Daly City, \$22,855 is from vehicle licenses and \$13,700 from gas taxes. Of the latter, \$7845 will not be forthcoming unless the city makes a request for a specific construction project—such as new streets or traffic signals.

The entire \$240,840 this fiscal year goes into the city's general fund. Forty percent of

Juveniles Raid Westlake Church

Two juveniles described as about 16-years-old broke into St. Martin's Church, 777 Southgate avenue, Saturday morning stealing a tape recorder, microphone and transcribing kit worth \$229.50 and breaking a bottle of communion wine in the street.

The two suspects were spotted by a newspaper boy at 5 a.m. They are also believed to be involved in the thefts at Vista Mar School, Southgate avenue and Bardley drive, on March 25 and April 2.

Reverend Allen J. Downey, 94 Palmdale avenue, notified police. He said that in addition to the tape recorder, two bottles of communion wine were taken. One was found outside, intact, the other broken in the street. Officer Les Bastedo said a pair of pliers and ball pen hammer were found inside the church. They were held in evidence as Reverend Downey said they were not owned by the church.

Three In Race For 4-Year Council Berths

Daly City's "quietest" municipal election campaigning in many years comes to a balloting climax next Tuesday when 16,721 residents in this community of 43,200 will be eligible to vote on two city council berths and the city treasurer position. The polls—38 precincts—will be open from 7 a.m. to 8 o'clock in the evening.

Trustees Map 3 New Sites

Elementary trustees Monday night approved a five year option with the Doelger Corporation for a school in Westlake Unit 11 area, and released what had formerly been designated the Portola School.

In order to exercise the option, the district will have to pay \$467,536 for the Westlake Unit 11 site prior to June 30, 1965. The Unit 11 site is southwest of Longview drive and Bellecrest avenue. The Portola release is for lands bordered by Portola avenue and Northaven drive, east of Skyline boulevard.

All site improvements at Westlake 11 will be made by the Doelger corporation. Prior to June 1, 1963 the school district will not be charged interest on the land. From then until June 30, 1965, the expiration date for purchase, the district will have to pay 6 per cent interest.

The school is to accommodate youngsters from 270 homes in the area.

Superintendent Richard Foster also noted concern for the Christopher Columbus site, located on Higate drive and St. Francis boulevard. The superintendent noted that the freeway proposal may do away with 250 homes in the area, leaving the district with 175 less than anticipated students.

Foster said the school was being planned for 18 classrooms with 2 kindergartens but now a second set of plans must be drawn for 12 classrooms and 2 kindergartens by Architect Mario Ciampi's office. When freeway plans are more definite

Four Candidates In 'Tiny' Colma

Less than 100 cemetery town of Colma registered voters will decide three council positions in next Tuesday's election. On the ballot are incumbents Wallace Honeywell and Earl Taylor, and Leslie Balestra and Fred Garbini.

The town of Colma, population about 400, has only one voting precinct—City Hall. Mayor Ray Ottoboni and Councilwoman Rena Vallegria's terms end in 1962. Councilman Michael Ryan's term expires this year but he decided not to run for re-election.

INFANT KILLER RULED INSANE

Mrs. Edythe E. Levine, 31 years old, 1106 87th street, Broadmoor Village, was temporarily insane when she strangled her six-week-old son with her husband's necktie on November 27, stated five psychiatrists to Redwood City Superior Court Judge Edmund Scott last week.

The psychiatrists recommended that Mrs. Levine undergo out-patient psychiatric treatment. Mrs. Levine, wife of a San Francisco advertising agency accountant, had pled not guilty by reason of insanity to the murder charge. The trial is to be continued. Her attorney is prominent San Franciscan Nate Cohn.

Although the main attraction is the three-man city council race, almost as much interest has generated from the city treasurer scramble—also with three in the running.

City council incumbents Francis P. Pacelli and Joseph J. Verducci, both of Westlake, have only one challenger.

Like Pacelli and Verducci, candidate Del C. Wilson, of St. Francis Heights, is campaigning "independently."

Pacelli, 39, resides at 117 Windsor drive and is a part-owner of a stationery supplies business at 6760 Mission street. A graduate of USC, Pacelli served on the city library commission prior to his appointment to the city council late in 1957 as a replacement for City Attorney Paul Hupf.

Verducci, 50, lives at 118 Wilshire avenue. Director of athletics and coach at San Francisco State College, he is a graduate of University of California. Verducci is seeking his third consecutive term on the Daly City Council. He was mayor for four years, '55-'58.

Wilson, 47, resides at 206 Alta Loma avenue. He served on the Daly City council four years, losing for re-election two years ago. Wilson is a real estate appraiser and a licensed broker.

Pacelli, Verducci and Wilson have one thing in common, but little else alike in their platforms. They all vigorously fought for the adoption of sales tax here.

Incumbent Paul G. Selmi, 58, of 67 Miriam street, faces a strong challenge from elementary school board chairman Joseph Lewkowicz, 51, of 501 Vista Grande avenue, in the city treasurer's tussle. Also seeking the job is Peter J. Becker Jr., 62, another long-time resident, of 824 Templeton avenue.

Selmi, former mayor and councilman, is a real estate broker and has been city treasurer the past 12 years. Lewkowicz owns and operates a service station at the corner of Bepler and San Jose avenues.

Sewer Board Brings '11' Into District

Sanitation district directors Monday by resolution voted unanimously to annex Doelger's Westlake Unit 11 home tract (west of Skyline and running to the Pacific line) to the North San Mateo County Sanitation District.

An alternate plan for relocating pumping plant sites in Westlake 11 was approved pending consent by city of Pacifica. Doelger also owns Pacifica land across from Unit 11 and Edgemoor freeway which will be known as Doelger's "Westmont" development. Sewage service is a major concern for the builder as far as Westmont is concerned.

The sanitation board also authorized an agreement with a apartment builder Gus Pedemonte that would allow him to connect to the district's sanitary sewer system at the end of Florence street. Pedemonte intends to build apartments east of Mission on the south side of Garibaldi street and fronting on Price street.

The sanitation directors are chairman Bob St. Clair, Francis Pacelli and Tom Callan Sr.

Superintendent Cites 'Callan Park' Effect On DC School Costs

Jefferson Elementary District Superintendent Richard Foster told the board of trustees Monday night that if both the Crocker Estates and Callan Park annexations are made by Daly City the school district will have to call for a bond issue of \$14,310,000 next year.

He broke this down to \$2.20 tax rate base per person with an additional 14 cents for an over-all total of \$2.34. Residents here paid \$2.18 this year. The additional 14 cents is to meet California's scale of assessment practices which means an \$80,000 loss for this district because of San Mateo County's adjusted ranking in this field.

If just the Crocker land alone is annexed, the bond issue will call for \$8,374,000. Foster noted that two schools will be needed in the Crocker Estates and four in the Callan Park movement. He said the

Crocker land value is higher, and thus more money would be needed for two schools in that area than four in Callan Park.

By September 1, 1963 at least two schools would be needed within our district and two more inside the Callan area, Foster added. "It would be at least two years before schools are built excepting the one that is already in the planning stages in our district now," he said.

"A five year projection shows that our district could possibly double in size, if both the Crocker and Callan lands are annexed. We have 7750 students now and the total in five years would be 14,500," he stressed. Not considering annexation there will be 12,100 students attending in 1965, he added.

The elementary district will have \$53,000 left from the last bond issue but this appears to be a mere pittance in the over-

all five year picture.

Foster said, "If annexation comes about we hope to operate without double sessions but we would be pressing just as tightly as we are now. Though we have 7750 students there are no double sessions but 12 classes are located in multi-use rooms and all libraries but two are being used for class space.

The superintendent told trustees that the district might be transporting 600 youngsters in the Callan Park area—as many more as are currently being bussed—until schools in that area are finished. "We could be spending as much as \$10,000 a year just for transportation until the new schools are completed," he said.

cepted for correction of sewer work at the Colma K-6 school. Superintendent Richard Foster said the insurance clause in contract documents has been revised in order that loss by malicious mischief and vandalism will not be charged against the school district but rather to the construction contractor at the time of building. The board approved the re-wording of the contract.

Trustees also made changes in two school dates, declaring June 17, 1960 and June 16, 1961 as holidays for students but a full work day for teachers. Foster noted that the additional holiday is to let teachers complete all reports and records that are necessary at the end of the school year. Both days were formerly the final day of classes.

Planners OK Land-Use Plan

(Continued from Page 1)

Callan's 21 acres south of Eastmoor and west of St. Francis; additional R-3 (apartments) and "special use" for area between Hillside boulevard and Mission; reduction of "industrial" area in Crocker hills off Market street by eliminating certain Lagomarsino lots, and changing proposed "redevelopment" area (between Alemany and San Jose and north of Knowles avenue) to "urban renewal" project, as suggested by Charette.

Callan asked the planners to review the city's 36-foot (three story) building height limit. The builder has plans for tower-like apartments in three areas of Daly City.

Barber said the height limitation was a zoning ordinance matter and had nothing to do with the Land-Use Plan.

Planners' chairman Richard Dwyer said the commission would be particularly careful in studying requests for apartment zoning between homes on any block here.

As for transportation, the commission told Charette—that rapid transit and freeways would be clearly defined on the major city street map—an other phase of the Master Plan.

City Election

(Continued from Page 1)

Becker is an electrician who holds high office in local veterans' organizations.

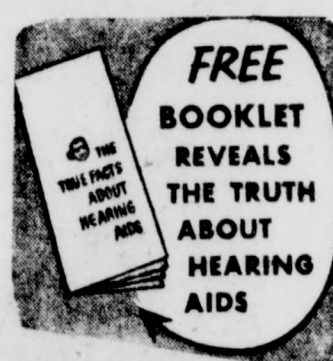

Lewkowitz twice has been a candidate for city council. Becker also was unsuccessful in previous attempts as a council candidate.

City councilmen each are paid \$50 a month, while treasurer here, by law, is a full-time job, bringing a salary of \$400 a month.

City Clerk Evelyn Mosman, 56, is unopposed for re-election to her \$600 a month, four-year assignment.

Mosman said "a fair estimate would be 40 percent voting response next Tuesday."

She noted that for the last council election, in 1958 when 11 candidates campaigned heavily for three seats, 6721 voted out of 14,505 registered. This was about 42 percent response.

The new ballroom dancing class taught by Ann Marie Garvin (sponsored by the YWCA of North San Mateo County) is just the thing to put a welcome change into your life. Every Monday evening at 8:30, starting April 18, wife and hubby can learn all the new dance steps together. The fee is only \$6 a couple for the eight weeks. The class meets at the War Memorial Building in Daly City.

And a must for two is the bridge class on Friday nights at 7:30 to 9:30, Room A, at the War Memorial Building in Daly City, starting April 22. The fee is \$8 per person for the eight-weeks class. 'LIBRARY WEEK' HERE IS EXTRA FESTIVE--TWO BIG FEATURES

This is National Library Week (April 3 to 9) and Daly City's observances will run through this Sunday.

Both the Mission street and Park Plaza drive branches are "dolled up" with displays and school children are making annual tours of the two facilities.

On Thursday morning, 10 o'clock, in Westlake, City Librarian Sam Chandler will be key speaker at the Friends of the Library "Thursday Morning Book Review" session. Chandler, besides discussing "Notable Books," will talk on national book awards and tell plans for the new \$143,000 Westlake library, under construction and expected to be completed by July.

On Sunday, April 10, Library Week will be climaxed with a special reception, from 10 to 4 p.m., at the Mission street branch. The city manager, city council, library commissioners, the Friends' group and general public are invited. Chandler again will review library offerings and expectations. A special movie for kids, "You—The Human Animal," will be shown in the children's room of the Mission branch the same afternoon. Chandler has drawn specifications on furniture and equipment for the new Westlake li-

brary. This expenditure is expected to approximate \$30,000. Chandler said the new library occupies 100,500 square feet and its book capacity is 30,000 volumes. By contrast, the Mission street branch covers 1959 square feet and holds 13,800 books.

The city owns approximately 22,000 books—4000 of these in the tiny, leased Westlake branch on Park Plaza.

Chandler said the Library Commission hopes to get Council approval of \$10,000 for new books for the new Westlake building, designed by architect John Gioe, a Westlake resident himself. Wholesale price of books is about \$3.50 on the average, Chandler pointed out. At least 6000 new books would be a good start for the opening of the new library, Chandler said.

Daly City's libraries are open six days a week—10 a.m. to 9 p.m., Monday through Friday, and 10 a.m. to 5 p.m. on Saturdays. They are closed Sundays.

Headed by chairman Dr. Lionel Farber, Daly City's Library Commission consists of Maude Hanselman, Sarah Kelechava, Frank DeMartini and H. Clifford Digmán. Library Commission meetings are held the second Wednesday evening each month at City Hall, 75 Wellington avenue, at 8 o'clock. These meetings are open to the public, and "book lovers" are encouraged to attend, Chandler reminds.

Population

(Continued from Page 1)

Arch noted that Daly City's population in 1955 was about 30,000. Last year in June a special census listed 38,629 residents.

The finance director explained that the current federal census will result in the state adjusting latest population counts, thus entitling each city to more gas tax and vehicle license revenues.

He added that any city can request a special state census if it anticipates population has jumped at least five percent over an earlier official census count.

Daly City is believed slightly ahead of South San Francisco as San Mateo County's third largest city.

the district will decide which course of action to follow, 12 or 18 classrooms. In the meanwhile, Foster said he would speak with J. P. Sinclair, assistant state highway engineer. The gist of the conversation will deal with the plans and why the district was not notified of the affect the freeway would have on the schools.

WHAT'S WRONG?

Tuesday, April 12, is Election Day for several city jobs and April 14 is the deadline for registration for the June 7 Primaries.

The several County Clerk Registrars who give unstintingly of their personal time to make it easy for us to register to vote have reported the following as some of the excuses to get out of registering:

"If I register, I am afraid I will be called for Jury Duty."

"I am not interested in politics."

"I don't know who to vote for anyway, so why register."

"My vote would make no difference in the election outcome."

"I haven't the time now."

Have we, as American citizens, forgotten that other people throughout the world envy us for our right to free elections?

Have we, as American citizens, forgotten how hard our forefathers worked, and yes fought, to give us the right to free elections?

Have we degenerated to the extent that we don't care who represents us in Government?

What would the feeling be if we lost or someone tried to take our right to vote away from us? We can hear the hue and cry now if someone ever tried.

Our community's welfare is in your hands.

You owe it to yourself—your family and your next door neighbor to be eligible to vote and to get out and vote on every election day.

Census Takers To Cover More Than 28 Million Miles Of U.S.

The 1960 census of population and housing, the nation's 18th decennial nose count, began last Friday, with 160,000 census takers starting their rounds which will take them to every dwelling unit in the United States.

In covering the 3½ million square miles of land area of the 50 states, the census takers will travel an estimated combined distance of more than 1000 times around the world, or approximately 28 million miles.

The District Supervisor pointed out that residents of this area can speed up the big count by having their Advance Report Forms filled out and ready for the census takers. This action will save time for both the householder and the census taker, the census official said.

The advance report form was distributed to local households prior to the start of the house-to-house canvass. It contains the seven population and six housing questions which are asked of all persons. The advance report form gives the family a chance to assemble information about each member in advance of the census taker's visit. Its use is expected to speed up the field canvass and provide more accurate statistics.

At every fourth household, the census taker will leave a Census Household Questionnaire which contains additional questions covering population and housing characteristics which are being asked of a 25 percent sample of the population. Householders are requested to fill out the household questionnaire and mail it within three days to the local census district office. A pre-addressed postage free envelope is being provided for this purpose.

The district supervisor emphasized that all information about individuals and their homes furnished to the Census Bureau is held in absolute confidence under Federal law. It is used only to provide summary figures such as totals, averages, and percentages. The information about individuals cannot be examined by any one

other than Census employees who are sworn to secrecy, and thus cannot be used for investigation, taxation, or regulation.

Householders will not have any difficulty identifying the takers of the census. Each census taker is provided with a red, white, and blue identification card to be worn on the lapel. This card bears the seal of the Department of Commerce and the words "Census Enumerator, Official Credentials" are printed across its face. Persons purporting to be census takers who do not have this identification card should be reported immediately to the local district Census office.

Census takers will be further identified by the portfolio containing their supplies. The portfolio is brown and bears the legend, "1960 Census of the United States," printed in green ink. In the portfolio, the census taker carries his supplies of report forms, maps, pencils, and other tools of his trade.

Injury Brings Protest On White Street

Dear Mr. Bradshaw:

We, the residents of Broadmoor Village, have asked the San Mateo County Planning Commission for the extension of White street. This prepared plan was approved by them over two years ago. This matter was passed on to the board of supervisors and met strong opposition from them. The matter was sidetracked because of the lack of funds by the supervisors.

The near mishap which occurred to little four-year-old Tommy Helmer should wake up the supervisors and the community on the matter!

Please—

Jefferson Elementary Summer School Faces Influx Of 900

If a survey's results are of actual value, the Jefferson Elementary School District will have 900 more students attending the summer school program this year.

Superintendent Richard Foster told trustees Monday night that 135 attended the summer sessions last year but a preliminary survey has divulged that 1025 will be in classes come June 27.

The board authorized the dates of the summer program from June 27 to July 29. The trustees also approved a salary of \$100 per week for teachers, the amount of \$650 for the principal and courses to be taken, though these must also meet the requirements of the State.

Children will attend from 8 a.m. to 12:15 p.m. at the Colma and Ben Franklin Schools. Students eligible must currently be in grades three through seven.

Foster noted that there are two parts to the summer school program, enrichment classes and the developmental program. Enrichment classes may be chosen from arts and crafts, choral music, general science, general shop, instrumental music, language arts, physical education and social studies.

Developmental program offerings are arithmetic, reading, writing, spelling and grammar.

By ROY HURLBERT

THE CHAMBER of Commerce and City Council are footing a two-hour, stags only reception for City Manager Ed Frank this Friday night at Lake Merced Country Club—a favorite leisure hangout of many north county brass and municipal officers.

Just about every political figure in this neck of the woods will wish Frank well on his new assignment.

Managing Daly City is more than a challenge. It's a grind. But the pay at City Hall makes the duty worthwhile.

WILL there be another hearing on north county freeway routes?

Probably so, since South San Francisco is dissatisfied with the Daly City-maneuvered route.

But any new hearing would be with the state brass and not out in the open like a Roman carnival.

THERE were two "candidates' nights" here to give interested voters an opportunity to hear all six Daly City office seekers.

The platform night last week at Ben Franklin School's roomy auditorium drew a "mob" of 31 citizens. And Monday night, Westlake Improvement Association's candidates' affair didn't even populate that undersized meeting place to capacity.

All told, the two public-invited sessions brought out about 100 folks—most of whom had preconceived ideas about the candidates in the first place.

And for further apathy, remember that one council candidate didn't show up at Ben Franklin, while one treasurer aspirant missed the Westlake shindig.

Let it be testified, however, that both absentees had honest excuses. One already was booked for a meeting, while the other's school board chairmanship required his services that particular evening with that governmental body.

People who have mingled in Daly City politics for years are amazed by the lack of interest in the election next Tuesday.

Too bad, too. All kinds of things can happen at City Hall whilst a disinterested citizenry sits idly by watching TV on meeting nights.

SUCH medolious names for new streets in southwestern Daly City—where sand dunes and rolling hills once prevailed.

For example—Del Prado, Campana, San Miguel, Santa Rita, El Dorado, Pacifico (not Pacifica), Santa Ana, Santa Rosa and San Juan.

And did you ever notice that some housewives really are impressed by high class street names? The days of Elm and Main street popularity are for the ages.

A MAN with a Harvard accent on the County Board of Supervisors?

Ray Whitney, former Jeff High District trustee, is a candidate for the Coastside berth on the board. His opponent, incumbent Alvin Hatch of Half Moon Bay, is 83 years old.

Whitney was reared in New England. No surprise if you've heard his Haaavard "a."

ONE CITY employee told us last week he wished "more" Daly City residents had as much interest in local government as Ray Charette.

Charette is extraordinarily concerned about Mission street commercial expansion, off-street parking this side of town, and redevelopment of the rundown neighborhoods with federal funds assistance.

Charette's interest should be rewarded. Maybe by an appointment to a city commission?

CASE you can't figure politics, the controlling vote on the North San Mateo County Sanitation District board of directors rests with the Daly City council.

Two of the three sanitation directors are Daly City councilmen. Thus the city council pretty much is in the driver's seat on sewer district problems, improvements and decisions.

County Supervisor Tom Callan Sr. of Colma is the third sanitation district director here.

BUSIEST little guy in town is Sam Chandler, city librarian who used to be a schoolmaster in his native Utah.

National Library Week salutes the value of good books and reminds all what libraries are for.

How many good books did you read last month? Or last year?

The Friends of the Daly City Library, a patient group, and the City Library Commission, can hardly wait for the summer opening of the new Westlake plant.

When libraries are sagging structures and hard on the eyes, then they aren't as enticing. Same goes for schools.

Like almost everything else these days, people first have to be attracted to something before they become intensely interested.

This is the "gimmick age."

WHERE does the liability rest when students "willfully" damage school property?

High School Supt. Ed Morgan consulted the district attorney on this matter after two Westmoor students with slingshots broke about \$600 worth of windows.

The DA referred Morgan to Section 10606 of the California Education Code, which reads as follows:

"Any pupil who willfully cuts, defaces, or otherwise injures in any way any property, real or personal, belonging to a school district is liable to suspension or expulsion and the parent or guardian shall be liable for all damages so caused by the pupil."

In short, the district attorney thinks the law means that parents must pay out of their pockets for the wrongs committed by non-thinking juveniles.

Unless the parents pay the damages, the school district can refuse to allow the suspended students to resume classes. And this position will hold up in court.

CATHY HUNTER, 3, certainly approves of the novel laundry bag, featured by the linen

booth, at the Carousel Days of Our Lady of Mercy Parish, to run from April 28 through May 1, in the parish hall, 1 Elmwood drive. Also admiring the handiwork are Mesdames Charles Boerio, chairman of the booth, and John Locke, right, chairman of parcel Post booth. Charles Blagdon photo

+ TEEN TALK + By Joe Bavaresco

Hi Again:

This week I'd like to give you kids a bit of advice about Easter. You know as you get into your teens you begin feeling that church "is for the birds" or that it's a "bad show" to go to church. This week just between you and I, let's talk about going to church, especially you guys. There are a lot of girls who go, but church for guys, man I'm sure you'd rather work on a car! Well, kids, listen. Easter Bunnies are fine, colored eggs are kicks, but did you ever ask yourself what it would be like not to have these privileges. This week I went to a children's hospital that has patients with T.B., polio, and other sickness that prevent these kids from being able to receive Easter baskets, color eggs, and eat candied eggs. Then, I saw teenagers, guys and girls, with fatal diseases, kids 14-19 years old who were behind glass walls and were not allowed to see even their parents. These kids have their own private glass room. The only person who was allowed to talk to them was the doctor. If you don't believe me, you can visit any hospital in your area and see how very lucky you are. How they must feel! For months never to hear their mother's voice, for years never to walk, for years never to get dressed in a dress or wear any clothes other than a pair of pajamas, never again to drive a

car, never again to fix a car. The teenage girls unable to sit or comb their hair because of polio or some fatal disease, for months unable to touch your mother and father tenderly. Some never see again. Yes, what of the teenagers who are blind or deaf. Those who will never hear music again, never hear their friends talking to them, or never being able to see their face in a mirror again. never see a sunrise over a mountain, never see a pretty flower ever again. No, kids, I'm not trying to make you feel bad, in fact, what I'm trying to make you see is the wonderful blessings that have been given to you. The wonderful gifts God has bestowed upon you. God has given us so much that we sometimes take much for granted. You might say you don't believe in God. Then I feel very sorry for you. Without God nothing is possible, but with God nothing is impossible. Anyone who doesn't believe in God is a very lonesome person and life is so difficult that often times unless we can turn to God for help, people give up and take their own lives. So count your blessings and thank Him who is responsible. All I'm trying to say is we all have many good reasons to go to church. With this week of Easter upon us, don't goof up a chance to thank God for giving us life. Maybe your life is a hard life, but so was the life of Our Lord. The point of this whole column is not to tell you, "you have to go to church." No, I'll leave it up to you. But when someone gives you something, you usually say thanks, and what better time to say thanks to God than this Easter. Huh? What do you think? By the way, while you're there, look around. You might like it in church. And if you like it, you might go back. While you're looking around if you look hard enough, you'll probably see a lot of your friends there. I know one friend you'll see there, ME!

See you next week. Have a Happy, Cool, Crazy Easter! If you have a teenage problem, send it to: Joe Bavaresco, Camp Meeker, Calif.

Better Business Bureau Warns Of Freezer Food Plan Pitfalls

Danger signals on the horizon indicate that certain local freezer-food plan operators had better review their sales techniques, lest this industry return to the "jungle" conditions that prevailed eight years ago.

During the past six months, the Better Business Bureau has noted a sharp increase in the volume of customer complaints, and new companies have sprung up and gone out of business during the same short period.

Vernon Libby, General Manager of the San Francisco Better Business Bureau, reports that some of the plan operators are inviting trouble when they advertise in Help Wanted columns for salespeople to earn commissions of \$600 a week if inexperienced and "over \$1200 a week" with sales experience. Such ads, he says, are attracting the so-called "suede shoe operators" who are masters of high pressure and misrepresentation.

Libby states that complaints show the following tactics are being used by some unscrupulous freezer-food salesmen:

—Tantalizing foods at a discount are stressed, whereas some customers complain of its quality, of shortages, and the fact that the food was consumed before it was paid for.

—Economy is stressed — ostensibly "You save enough on the food to pay for the freezer" — but the customer often forgets he must still pay for milk, eggs, and staples, as well as upkeep on a larger appliance.

—Inflated freezer prices are explained as including a membership fee, permitting the customer to buy meat and other foods (also, sometimes hard goods through an arrangement with a "discount" house) at wholesale prices. Members find that often the same prices are available to anyone and are not "wholesale."

—Up to \$70 is added to the contract for insurance to cover a limited number of payments.

St. Michael's Speaker To Discuss Cancer

CANCER — a dread word to everyone — will be discussed by Dr. Reinold J. Jones, representing the American Cancer Society, at the meeting of St. Michael's Mothers' Club, Monday night, April 11, at 8 o'clock, in the school auditorium.

With his explanation, Dr. Jones will hope to clear up the "scare" concept the average person about this disease, and point out the program the Society is conducting to educate the public in how to treat cancer, and even help prevent it.

In connection with his talk, the doctor will present a color film on forms of cancer that are peculiar to women.

This will be a thought provoking program, given with the hope it can reshape "scare" ideas into "hopeful" facts.

During the business part of the meeting, the names of those members chosen by the nominating committee to be the officers of the Mothers' Club for the coming year will be read by the president, Mrs. Edward O'Connor, and all members present will be asked to vote. The new officers will be installed at the June meeting.

Skyline B'rith Women To Hold Officer Election

Election of officers and initiation of new members will be held at the next regular meeting of skyline B'nai B'rith Women, April 19 at 8 p.m. at Forest Lodge, 266 Laguna Honda boulevard.

Mrs. Norman Steinberg will be in charge of the initiating program, assisted by the Mesdames Louis Gaylord, Jerome Shain and Robert Weiner.

Those members to be initiated include the Mesdames Elliott Bauman, Jerry Brachman, Sol Capper, Jack Dyson, Robert Elefant, Bernard Feinberg, Herbert Gross, David Jacobs, Karl Keyak, Jack Kramer, Stanley Levy, Leonard Mayer, Victor Mendelsohn, Albert Osherow, Gary Rechnitz, Howard Rubin, Allan Shamitoff, Sydney Stein, Albert Stoff, Norman Stone, Harold Wachter, William Weiner, Fred Young, and Seymour Zins.

As this meeting falls during the Lenten season, no refreshments will be served, but the hospitality chairman, Mrs. Barbara Bon and Mrs. Emily Johnson, invite all to stay for coffee.

Native Sons Parlor Makes Pacifica Debut

Grand President John Schmolle and his corps of officers from the Grand Parlor of

the N.S.G.W. presided. After the ceremonies members and their wives enjoyed buffet dinner.

RANCHO LIFE STUDY AT COLMA SCHOOL

Craig Lund, Steve Howe, and Robert Diaz have assumed the responsibility for measuring and cutting the material which is being used for special curtains in their fourth grade classroom at Colma K-6 School. The boys and girls of Dorothy Malone's class are in the process of perfecting their individual rancho brands which are stencilled on the curtains. This activity culminates a social studies unit on the study of rancho life in California.

Following their research projects, the children presented their findings in oral and written form. Stencilling has provided a keen interest in arithmetic, particularly measuring.

Eggshell relief maps are contributing another interesting phase of activity in this classroom. Different committees are at work compiling relief maps featuring the physical regions of California.

There will be reading areas for adults, young people, and children. Rooms will also be provided for the playing of musical recordings and the showing of films. The present library on Park Plaza drive will remain as a branch of the new library.

Chandler, in addition to his duties as librarian, is a book reviewer and lecturer. WESTLAKE FESTIVAL

Four Days Of Fun And Frolic For All During 'Carousel Days'

Going to the Westlake Carousel? Or, see you at the Carousel Days. These words are heard more and more, in Westlake, now that the week-end of April 28 is almost here. On Thursday, April 28, and continuing through May 1, the Westlake Festival Committee will unfold a four-day event of fun and frolic, in the parish hall, 1 Elmwood drive, in Westlake. Whatever your entertainment wish — the festival committee guarantees you will find it at the Carousel Days.

Always an attraction at any festival is the linen booth. Mrs. Charles Boerio and Mrs. Donald Coyne assure everyone, that a visit to their booth will be very rewarding. Under their guidance, a committee of women from the parish have been working for six months, on fancy needlework, homemade baby articles, and decorative items for the bathroom or

dressing room. Beautifully jeweled decanters will certainly catch milady's eye, just as delicately made tissue containers would be an addition of color and beauty to her dressing room. All these items will be seen in the linen booth, during Carousel Days.

As to children, young and not so young, many attractive items have been chosen, with them in mind. Novel animal pillows, comb cases, bean bags, eye glass cases will all have an appeal, for our younger visitors.

Throughout Westlake, and surrounding areas, this week tickets are being distributed, for free awards at Carousel Days. The tickets entitle the holder to participate in these free prizes, to be given away on Thursday evening, Friday evening and Saturday evening, during the festival. The cash awards are given away free—nothing to buy—nothing to sell.

All proceeds from this parish event will go toward the building fund, the principal goal being the construction of a much-needed additional school for the children of the parish.

Five homes on the Coastside will be open Sunday afternoon, April 24, for the second annual Spring Home Tour sponsored by the Pacifica Branch of the American Association of University Women. The tour of homes will extend from 2 until 5 p.m., following which tea will be served.

Other homes to be shown will be announced at a later date, pending final verification.

Some of the displays will be: flower making, scrapbooks, day camp crafts, dolls and doll furniture, silk screen display and book marks.

NOVEL QUALITY FOODS MARKET CONTEST OFFERS FREE CALL

Ever wish you could call a friend or relative far away and not have to worry about the phone bill?

This Saturday, a number of lucky winners in the novel "S&W Calling" contest will have the opportunity to do just that.

A three-minute telephone call, anywhere in the world, free of charge is the prize offered in this novel contest running this week at the six Quality Foods, Inc. markets, in San Francisco and South San Francisco.

The climax of the contest will come Saturday when the calls will be made from a special telephone booth which Manager Louis Armanino has helped to install in the Buri Buri Market, 1015 El Camino Real, the QFI market in South San Francisco.

Entries are being accepted throughout the week there and at the five San Francisco QFI stores. They include: Balboa Super Market, 3535 Balboa; Grand Central Market, 2435 California; Lick Super Market, 350 Seventh Ave.; Stonestown Market, Stonestown; Sunset Super Market, 2435 Irving St.

To participate, shoppers need only fill out a contest application, available in any of the six stores, giving their name, address and person and location they wish to call, and deposit it in boxes provided at the markets.

Calls will be made all day Saturday. Those not present when the winners are selected will be notified by telephone and have until 4 p.m. to place

Social Security Taxes Should Be Checked Closely

"Are you credited for the social security taxes you pay?" Mrs. Mercia Leton Kahn, manager of the San Francisco Social Security Office, asked today. Make sure you are, because improper reporting of wages or self-employment income may mean loss of benefits later.

Most people will need credit for several years' work to qualify for payments when they retire. To make sure the record is right, a check every three years is recommended.

"It is much simpler to correct records if an error is caught within this period," Mrs. Kahn continues. However, it is better still to keep the record straight from the beginning. Self-employed people who had a business profit of at least \$400 in 1959, must report their earnings for social security purposes on a regular Federal income tax return by April 15.

The worker's correct social security number should appear on his return. Those who work for wages should make certain their employers are reporting their wages correctly. To do this, the employer must have the worker's name and number exactly as they appear on his social security card.

Ten Inhalations Of Cigarette Restricts Air

Ten inhalations of cigarette smoke approximately double airway resistance—that is, the extent to which the bronchial tree restricts free passage of air in and out of the lungs.

These findings have been reported by Drs. Jay A. Nadel, Donald F. Tierney and Julius H. Comroe Jr. of the Cardiovascular Research Institute at the University of California Medical Center here. They studied 36 healthy volunteers and 22 patients with heart and lung diseases, and found that the effect on airway resistance was immediate and lasted about an hour.

Substantial changes in airway resistance may occur without being noticeable to the patient or the examining physician. Resistance is increased when bronchial tubes are narrowed.

Use of the body plethysmograph, an elaborately instrumented chamber for measuring a variety of lung functions, permits measurement of airway resistance uncomplicated by other effects. It can record changes too small to be detected by other methods.

Results were similar in healthy and diseased subjects, in smokers and non-smokers, and with cigarettes of high and low nicotine content. Smoking a pipe, cigar or cigarette without inhaling did not affect airway resistance.

The effect of inhaled smoke could be prevented by having the subject breathe a mist of isoproterenol, a bronchodilator drug. Mists of dilute nicotine had no effect.

The U.C. researchers suggest that the inhalation of very fine particles—rather than any specific chemical in the smoke—causes a narrowing of the

War Orphans Education Act Cited

Q—The daughter of a neighbor of ours is a war orphan, with a physical handicap. Must she wait until her eighteenth birthday before she can begin training under the War Orphans Education Act?

A—No. A law passed recently gave boys and girls with handicaps, who previously would have had to wait until their eighteenth birthday, the right to begin special types of War Orphans training when they reach age 14.

Q—I was in a Japanese prison camp during the fighting in Korea. I have a dental condition traceable to my service, but for which I do not receive compensation from VA. Is there a deadline in my case for applying for VA out-patient dental treatment?

A—No. You may apply at any time, and receive as many treatments as needed.

Q—If I should add the total disability income rider to my World War Two GI insurance policy, and become disabled, would the amount my beneficiaries would receive from the policy in case of my death be reduced in any way?

A—No. Disability payments made under the rider in no way decrease payments made to beneficiaries of your GI insurance policy.

Q—Is a veteran obliged to report disability compensation as income, in filing his federal income tax?

A—No. Disability compensation paid by the VA is not taxable, nor are other VA benefit payments. Interest on GI insurance dividends, however, is taxable as income.

JEFFERSON'S Joe Vaez and Jeff High (pictured) joined Bob Alverio and Anibal Davila as first place winners for the two mile relay team at the Peninsula League Relays. The boys flashed to an 8:35.5 timing. Jeff's varsity was third, the B's finished sixth and the C's were fourth when final relay scores were tabulated.

Davila, Reynaga Pace Jeff High Track Forces

Jefferson's varsity tracksters, who took a fourth in the two mile relay event in the El Cerrito Relays last Saturday, this Friday face Capuchino at San Bruno.

Coach Bob Watt's quartet of Joe Vaez, Bob Alverio, Joe Reynaga and Anibal Davila ran well at El Cerrito in a close finish. Clayton Valley, Carmel and Castlemont beat the Daily City foursome.

Watt's B distance medley unit (Rich Marston, John Margaroni, Duane Baswell and Ted Marquez) captured third at El Cerrito, losing by a whisker to Galileo and Antioch.

Jeff's varsity last Thursday here swamped Mills, 90-23, as sophomore Reynaga won the broadjump and half mile (19-6½ and 2:06.9) and junior Davila ran a winning 4:39 mile—the best timing on the Peninsula this year. The league mile record, in fact, is 4:31—within reach of Davila, Watt believes.

Jeff's B's upset Mills, 69-43, as junior Willie White captured first in the 70-yard high hurdles, 120 lows, and broke a Jeff record with a 5-8 high jump. Baswell, a soph, matched teammate White by winning the 330 in 39 flat and broadjumping 19-11—another Jeff record.

The Indian C's lost, 48-38. Jumper George Pressley and shotputter Cory Patton performed well for Jeff.

Jeff's varsity is 2-0 in Peninsula League dual meets. The B's are 1-1 and the C's are winless.

Montalbo Loses Three Hitter; Rams Victorious

Stan Montalbo's 3 hit pitching went for nought as Hillsdale scored all their runs in the first inning to beat Jeff, 3-1 at Hillsdale.

It was the second Peninsula League tilt for the Indians, who had six hits.

Westmoor got on the victory trail, edging past San Mateo, 6-5, at the Rams diamond. Barry Krohn allowed six hits while picking up the win. The Rams had but four hits.

BAD INNING COSTS JEFF 9 PRACTICE TILT

Palo Alto High collected two walks and a like amount of singles and triples in the fifth inning of last Tuesday's baseball tilt with Jeff to eke out a 4-3 victory in a practice game.

Don Staff fired no-hit ball for the Indians for four innings and left the mound with his club three runs ahead. Lynn Anderson was bombed for the loss, his first in two appearances this spring.

Jeff out hit the Palo Altans by one, spreading base blows among Rich Mortola, Tony Montalbo, George Claus, Sonny Stoller and Bobby With. Coach Steve Mezera had most praise for Jack Fuentes who turned in a scintillating performance in centerfield. "Fuentes may be one of the outstanding Peninsula League outfielders," Mezera said.

He also gave credit to Claus for fine stops at shortstop.

'Style' Talk At SF State

Miss Evelyn Erickson, associate professor of art at San Francisco State College and director of the College Style Center, will address the Women's Faculty Club, Friday, April 8, at 2 o'clock in Room 109, Arts and Industries Building on the campus.

Miss Erickson will demonstrate by chalk-talk, diagrams, drawings, and sample fabrics the improvement in personal appearance created by proper use of style and intelligent choice of color, fabric, facial make-up, and hair style.

The College Style Center, a facility available to all students, counsels, prospective teachers and young business people as well as those individuals who desire this service for personal reasons.

Tea will be served immediately following the program in the Faculty Dining Room of the Commons. Hostesses for the day will be Mrs. Robert Thornton and Mrs. J. Russell Gabel.

Name Miss Bocci "Belle" By COP Fraternity

Miss Maria Bocci, 62 West Cavour street, was crowned Belle of Archania (Alpha Kappa Phi fraternity) at ceremonies concluding the spring sorority rushing period at the College of the Pacific last week.

Rev. John H. Martin, S.J., chairman of the university's committee on scholarships, said the awards range in value from \$2400 to \$4000.

MIKE KENNEDY, a lad of many gloves displays his latest to J. B. Berry. Kennedy had to fill in behind the plate for an ailing Ed Crowley during the loop lifter against Westmoor. Mike usually plays the infield. Berry is the Jeff High starting left fielder. He too was switched this year, playing shortstop last annum and having a .275 batting average.

CAMILI NOT LOOKING FOR CAMILLIAS: Dolph Camilli, former major coast league star, was recently at one of the Westmoor games. He wasn't looking for flowers. Asked if he was gazing at anybody in particular in his capacity as New York Yankees scout he answered, "No." However, he did mention that shortstop Rich Morales "handles himself well." Camilli recently spotted a San Francisco shortstopper, Ken Dekker of Saint Ignatius and inked him to a many dollar signed contract.

ALL RIGHT BARBER, DON'T SHAVE SONNY: Occasionally we get to see a copy of the Totem Pole, Jeff High newspaper. On the last niche, err page, the sports are located. Hank Barber and Sonny Stoller use a number of original words, and we believe this deserves the highest of praise. We just wonder at times if Barber shaves Sonny's stories. All right, so it's not funny.

IT'S TOO EARLY TO TELL, DEPT.: It's a wee bit young in the Peninsula League baseball season to predict clearly but off Jeff's Frosh-Soph practice winning schedule it seems that Harry Vaplon will be coaching a winning ball club.

IT'S NOT FUTILE FUERTES: Jeff High's centerfielding phenom Jack Fuentes may be a solid candidate for All-Peninsula League honors come June, according to Coach Steve Mezera. Fuentes roamed far to his right, dove and came up with what would have been a sure triple for Rich Morales in the opener. Mezera told his bench-siders, "If Fuentes does anything with the bat he may be selected to the All League team."

JEFF PLAYING FOOTIE?: Mezera must be looking for a way for his ballplayers to sit down. Two first stringers missed the Ram game due to foot injuries. Karl Keeling because of infection and Ed Crowley who stepped on glass. The infield didn't suffer as many switches were made with Sabin Eastman performing admirably at shortstop and Mike Kennedy doing stiff catching work.

Cady's Swimmers In Identical Finishes

For the third straight league match, Jeff High's swimmers turned in identical performances. The Indian C's won, 36-23, while the varsity, 70-15, and B's, 41-19, lost to Capuchino at the San Bruno school's pool.

Varsity winners for Jeff were Gary Tinti, who won the 200-yard individual medley and tied with a Mustang opponent in the 100-yard butterfly, and Art Glover, in diving.

Wallace captured the only first for the Indians in Class B competition, winning the 100-yard backstroke. C's placers were Dan Craig, who swam the 50-yard butterfly with Leon Guerrero right behind him; Dick Gotelli in the 50-yard backstroke; and Dave Iwashi in the 50-yard breaststroke. Indians Pound 11 Hits In 6-4 Win Jeff Stickers Plaster Rams During PL Opener

Jeff High didn't wait long to turn in a big upset.

In the opening game of the season, against Westmoor, the

Indians made use of a big five-run first inning to derail the Rams, 6-4, last Friday on Jeff's diamond.

Every member of the Jeff line-up got at least one hit, Sabin Eastman being the only one left in the cold. He hit the ball hard though not getting one of the 11 singles. Westmoor, as all figured, started out as a champion potential club should. The one run tallied didn't last long, however.

Jack Fuentes, who was later to turn in the outstanding catch of the game led off the last of the first with a looping single to left. Eastman walked and both moved ahead on a double steal. Fuentes scored on Rich Mortola's lined single to right. Tony Montalbo knocked in the other two runners with a bounding single over second base.

Jeff wasn't through yet, though Bob Goodwin was Ram Coach Rod Losberger

brought in lefty Dick Reese. An error and singles by Mike Kennedy and Stan Montalbo accounted for two more runs in that inning.

Reese allowed three runs during his 5 2/3 innings pitched but none of them were earned. The three runs that Stan Montalbo surrendered were all earned but the right-hander with the twisting fast-ball and tricky knuckler was tough in the clutch.

Also rising to the occasion was Fuentes. The centerfielder dove far to his left to rob Rich Morales of extra bases with runners on second and third. Though the pair later scored, the nab was a rally killer.

Jeff Coach Steve Mezera had to use a makeshift infield due to Karl Keeling's being out with infected feet. Mortola and the Montalbo twins had two bingles apiece. Billy Hix had two hits, a double and single, for the losers.

Jeff C Swimmers Keep Winning

Jefferson's varsity and B's mermen were kicked about by Hillsdale Tuesday, while the C's won, 39-20.

Indian C's who were outstanding were Vic Gotelli's 50 yard backstroke win at '33.4, Bill Beard's 100 freestyle at 1:08.0, and the first place medley and freestyle relay teams.

The 2:18.3 medley timing was set by Gotelli, Dave Iwashi, Dan Craig and Beard. Freestyle first place relay team with a clocking of 2:03.1 was Larry Ahuna, Larry Hess, Mike O'Campo and Ken Kalieki.

Jeff's varsity lost, 67-14, while the B's were shellacked, 62-5.

Darwin's Theory Of Evolution Is 7-11 For Jeff Braves

Darwin Haanen, Jeff Frosh-Soph pitcher, made like a dice player against Balboa last week, walking 7 and striking out 11. The Indians won their fourth of five practice tilts, 5-1, at Marchbanks Park.

Coach Harry Vaplon said it was Haanen's second win against no defeats during the scrimmages, the same record as Bob Miller. The only defeat up to this time was an extra inning contest in which Galileo prevailed 1-0.

All of the runs in the Bal game were plated in the second inning. Three walks and singles by Miller, Mike Rovai and Skip Del Sarto accounted for the Indian runs.

Crocker, Avenue Man Hospitalized By Overdose Of Pills

Augustine Gonzales, 42, 450 Crocker avenue, had a lavage performed at Junipero Serra Hospital Monday evening after taking and overdose of pills.

His wife, Zoila, 36, at first notified a Westlake doctor saying her husband had attempted suicide. She later said the overdose was accidental as the pills were prescribed.

Officer Matthew Murray arrived at Gonzales' home and found Officer Steve Steen and M & D Ambulance attendants administering oxygen to the man who was on the floor and having a hard time breathing.

Gonzales was later transferred to Community Hospital where a 72-hour hold was signed by Murray.

Bantam Bowlers Overflow Lanes For First Week Of Instruction

Last Saturday marked the opening day of Westlake Bowl's new Bantam Instruction League for boys and girls, 12 years and under.

At 9:45 a.m., eight lanes were set aside to accommodate an anticipated 50 youngsters enrolling in the program. At 10:15, four more lanes were made available to absorb the overflow of youngsters that crowded onto the lanes.

The youngsters, after registering, were assigned numbers and instructed in the correct method of holding the ball, lifting the ball from the ball return safely, and the proper footwork in approaching the lane.

After several practice throws the youngsters settled down and started their first games. At the finish of their second game they had developed a

good basis for the weeks ahead.

The youngsters have been assigned to teams consisting of four bowlers per team. To insure adequate space and avoid problems of over-crowdedness, 16 lanes will be used instead of the 8 originally planned.

Starting next Saturday the youngsters will establish their first two-game average. This will be the yardstick by which progress will be measured.

In answer to the many requests for entry into a competitive bantam league for boys and girls, 12 years of age and under, a six-team boys league and six-team girls league was formed Saturday.

The league will bowl one round (five weeks for a six-team league) and two practice sessions. The last day of bowling for the leagues will be May 28.

GARY MOLOSSI, Jeff High's high jumping star cleared six feet at the Peninsula League Relays. A junior, Molossi has already gained his varsity month.
